PROFESSIONAL ARTIST

# About Me

I'm Daniel Armando Canizares Sánchez, an artist and educator with a degree in Artistic and Cultural Education. Currently, I'm pursuing a Master's in Education. Over the years, I have gained extensive professional experience in the field.

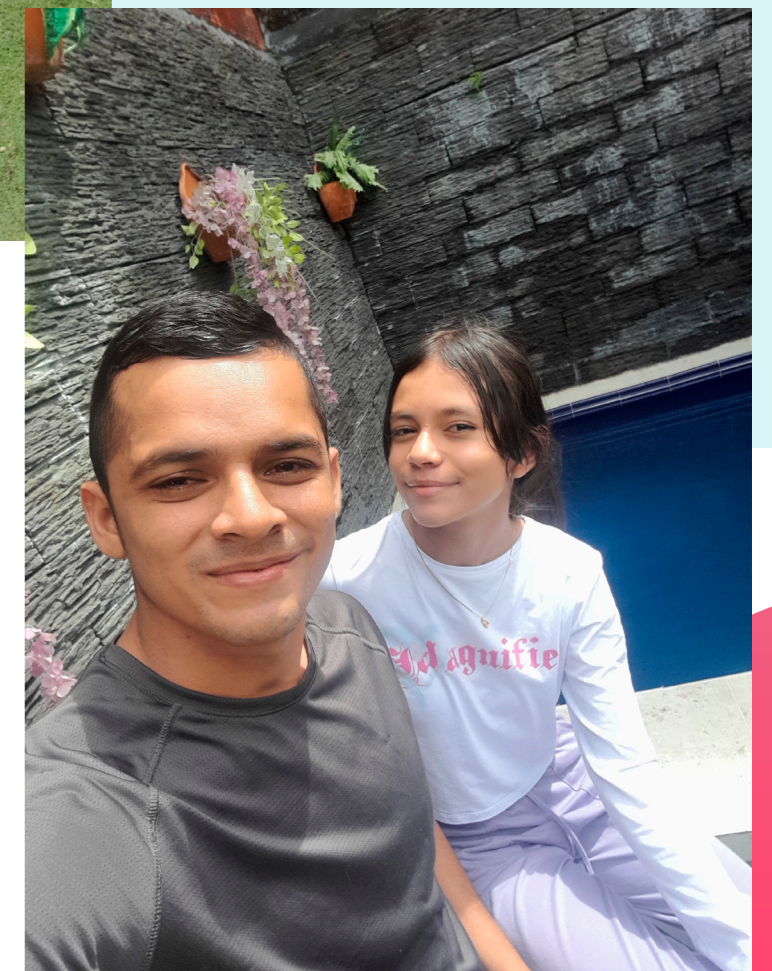

I have worked as an Educational Teacher at the Artistic-Roosevelt College and as part of the Teacher Corporation Huellas de Mi Tierra in Cúcuta. I have also taught Plastic Arts at CENFAGO Academy and served as a Trainer in Plastic Arts for various organizations, including the Secretary of Culture and Tourism.

I am proud to have received recognition for my work. I won the third version of the Stimuli Project organized by the Municipal Secretary of Culture in Cúcuta. The Ministry of Culture also awarded me for my project promoting traditional games through painting. Additionally, I have achieved notable milestones in my artistic career, including an award at the MUART competition organized by the University of Pamplona and an honorable mention at the Cúcuta City Visual Arts Hall.

I am passionate about research in art education. I have presented on topics such as "Art as a Means of Training and Inclusion to Improve Learning in Young People with Specific Abilities" and "The Artistic Work as a Means of Exploration and Production through the Use of Ephemeral Materials." I have also delivered a presentation on "Art History."

With a deep commitment to fostering creativity and inclusivity through education, I continue to inspire students and contribute to the field of artistic and cultural education.
