## MIGUEL DÍAZ GRANADOS

**PROFESSIONAL ARTIST**

*A painter with the Caribbean light*

# ABOUT ME

I am a sculptor and painter, a creator of beauty, blessed by the charm of my native city, Cartagena, one of the most beautiful cities in the world. My art reflects the magic that flows through this city, with its skies, vibrant colors of nature, and the sea captured in my works.

Although I successfully studied architecture, my true love has always been art. After graduating as an architect, I found a new home at the "Escuela de bellas artes de Cartagena". There, I developed my talent and acquired the knowledge and techniques needed to pursue my own artistic path. I delve into the secrets that are only available to those who fully surrender to the enchantment of art.

# MY ART

I'm a disciplined artist with a deep understanding of color and form. My works capture the vibrant light and colors of the Caribbean coast, as well as the passion and strength of everyday life. I also delve into abstract art, creating intense experiences that transport viewers to a unique space.

# MY FAMILY

The most important thing and the source of my inspiration... My family.

# My Exhibitions
