PROFESSIONAL ARTIST

WHO I AM?

I am a young Colombian artist starting this career in the world of color, born into a family of artists and talents, I carry the flag of the new generation to leave my mark and show that what we do with passion and love is eternal.

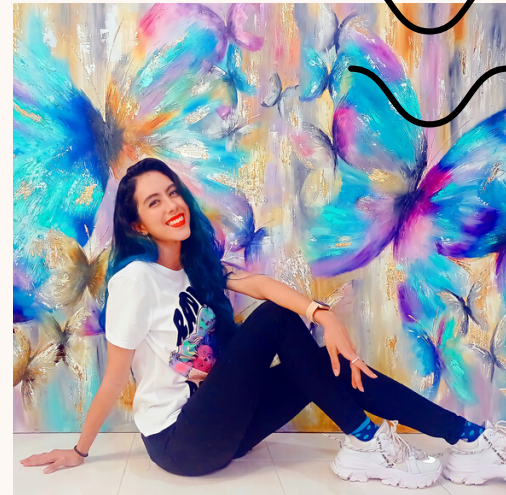

My vision of Art

I am a faithful believer that art makes the world a better place, not by fantasy, rather because I think that what makes us feel alive is what we should bet on. In art we find all that, it is an escape from the world, it is a way to purify our heart and let out through it everything that we keep and cannot express with words.

For me art is everything, and if God has done so many wonders, how much more can we do that we have been created by the best artist. My biggest wish is to be able to reach many young people who dream of a future in this and inspire them to believe.

*Passion is my
personal stamp*

My style is always in constant change, i never stay still, i always want to experiment and create. I don't want to be remembered for a single thing, but for the set of many colors that create a great work of art.

**I CREATE MY
OWN WAY**

OPEN DOORS

little pieces of me in many places

I have the blessing of working with my art in different parts of Colombia, with galleries that exhibit what I do and with different businesses that have allowed me to leave a piece of myself there.

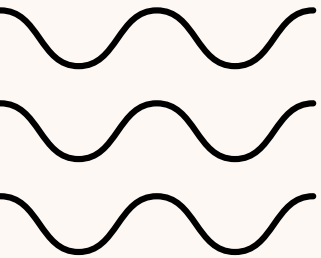

However, my interest in art is also mixed with fashion, and I have released clothing collections with my art on it.

BREAKING FEARS

Participating in exhibitions is the dream of every artist and also their biggest fear, being naked in front of people, and expecting both good comments and criticism is not easy, but they are challenges that make you grow.

I am fortunate to be the third generation of my family to carry a brush in my hands. But my dad has always been my biggest inspiration, because thanks to the fact that I grew up watching him become a master of art, I decided that I wanted to be like him.
